EDUCATION

2024	Makhwivirini Senior Secondary School Bachelor
2025	HCIA-DATACOM Huawei ICT Academy

SKILLS

Web development

Communication Skills

Team work

Tutoring

PROJECTS

Duvazi Educational Center

It's a website for a private school that will be established in the upcoming 4 to 5 years so i was hired to create the website and i was creating it one since they couldn't find another IT to help me out, and it might have taken longer because i was doing my first year in Sol Plaatje University.

ClassFlow Moodle Aquitance

It is a timetable like system that is working together with moodle to make communication easier between students and lectures as well as lectures themselves in case they want to book tge students for a test so they will have to check the ClassFlow and see when they are free so they can book them for a test, the system also allow them to notify the students if the class or test is canceled to, it notify students of the following class or test if there's any and lastly the lectures can update the timetable at anytime if there are changes.
